

Khaled El Nagdy

Analytics Engineer | BI Developer | Snowflake | DBT | Power BI | SQL

📍 Egypt ✉ knagdyknagdy@gmail.com ☎ +(20)1004821893 🌐 /nagdii

Analytics Engineer with over 3 years of experience designing and delivering end-to-end analytics solutions using Snowflake, DBT, and Power BI. Experienced in building scalable data models, optimizing complex SQL transformations, and enabling executive-level reporting for international stakeholders. Proven ability to translate business requirements into robust data architectures within Agile environments, driving reliable, data-informed decision-making across teams.

📁 Professional Experience

04/2024 – present
Cairo

Analytics Engineer, FlairsTech

- Designed and delivered end-to-end analytics solutions using **Snowflake, DBT, and Power BI**, transforming raw data into scalable, analytics-ready models supporting business-critical reporting.
- Engineered and optimized semantic data models using **DAX and Power Query (M)**, improving performance, maintainability, and data accuracy across reporting layers.
- Built and maintained scalable data pipelines integrating **REST APIs, SQL Server, and multiple external sources**, enabling near real-time insights for international stakeholders.
- Implemented automated monitoring and alerting workflows using **Power Automate**, proactively identifying anomalies and enhancing reporting reliability.
- Optimized complex SQL queries, stored procedures, and scheduled jobs, improving report refresh efficiency and ensuring consistent data processing.
- Developed and maintained executive-level dashboards and paginated reports using **Power BI and Sigma Computing**, supporting cross-functional decision-making.
- Collaborated in Agile/Scrum environments with data engineers, analysts, and international stakeholders, translating business requirements into robust analytics solutions.
- Ensured long-term reliability of BI assets through proactive validation, troubleshooting, and continuous performance optimization.

02/2025 – 04/2025
(Contract – Remote,
KSA)

Business Intelligence Developer, Dukan

- Designed and delivered executive-level dashboards and paginated reports using **Power BI and Power BI Report Builder**, supporting financial and strategic decision-making.
- Partnered with Finance leadership to assess existing reporting workflows and identify scalability and performance improvement opportunities.
- Proposed a structured analytics modernization roadmap focused on improving data architecture, governance, and reporting efficiency.
- Developed and optimized semantic models and measures to ensure consistency, accuracy, and maintainability of reporting outputs.
- Collaborated with cross-functional teams to translate business requirements into actionable reporting solutions.
- Strengthened model governance and deployment practices using Tabular Editor and structured version control processes.

07/2023 – 04/2024
Cairo

E-Business Reporting Executive, QNB AL-AHLI

- Developed and maintained enterprise-level **Power BI** dashboards and paginated reports to track marketing campaigns, KPIs, and internal performance metrics across departments.
- Delivered analytical insights to support campaign performance evaluation, client engagement tracking, and internal incentive programs.
- Performed ETL processes using **SQL and PL/SQL** across **SQL Server** and **Oracle** databases, ensuring accurate and structured data extraction for reporting.
- Designed and optimized **DAX** measures and **Power Query** transformations to enhance reporting accuracy and usability.
- Automated reporting workflows using Microsoft **Power Automate**, reducing manual effort and improving report delivery consistency.
- Collaborated with cross-functional stakeholders to gather business requirements and translate them into structured, data-driven solutions.

12/2022 – 06/2023
Cairo

- Identified and resolved data discrepancies, ensuring high levels of data integrity within a regulated banking environment.

Frontend Developer, IntraZero

- Developed responsive web applications using **React, HTML, CSS**, and **REST APIs** in an Agile environment.
- Collaborated with backend developers and designers to deliver production-ready features.
- Optimized front-end performance and ensured cross-browser compatibility.
- Managed version control using **Git** in collaborative development workflows.

06/2021 – 11/2022
Cairo

System Analyst, IntraZero

- Gathered and documented business requirements for web and mobile systems.
- Designed **UML** diagrams, **ERDs**, and technical specifications to support development teams.
- Translated business needs into structured technical documentation across **SDLC** phases.
- Collaborated with cross-functional teams within **Agile** project environments.

Internships

11/2020 – 02/2021
Cairo

**Intensive Training Program (ITP), Data Visualization Track,
Information Technology Institute**

Education

2016 – 2020
Cairo

BSc. Of Business Administration - English Section, Helwan University

Courses

2021	The Business Intelligence Analyst Course 2021, Udemy
2021	Data Challenger Track in Data Analysis, (FWD)
2021	Interactive Dashboard using Power BI, Powerful Insights
2021	Present your Data Online, Powerful Insights
2020	Excel Dashboard, Powerful Insights
2020	Database Fundamentals, Maharatech

Technical Skills

Data & Warehousing

Snowflake, DBT, SQL Server, Oracle, PL/SQL

BI & Visualization

Power BI, Paginated Reports, Sigma Computing

Data Modeling & Transformation

DAX, Power Query (M)

Automation & Integration

REST APIs, Power Automate, Microsoft Fabric

Development

Version Control (Git)

Languages

- Arabic
- English
